# 2012 Schools Access Monash (SAM)

Schools Access Monash works with students in Years 8-12 in select secondary schools to support and inspire engagement with Higher Education. The SAM program aims to encourage students to explore university study and pathways and to prepare students for a successful transition from school to further study.

SAM activities will take place both at your school and on Monash Campuses and will allow students to:
- explore and evaluate their course and career options
- be inspired to follow their interests
- prepare academically and personally for university
- feel connected to the university community and believe that that “Uni is for me”.

| Year 8 | Introduce students to concept of University to empower and enthuse them to understand their options
| Year 9 | Aspiration raising - begin conversation about careers, how you get there (ie what level of study) and researching their options
| Year 10 | Expand student’s knowledge of university with real life experiences/examples
| Year 11 | Help students continue to explore course options and to work on skills to successfully complete VCE
| Year 12 | Assist in providing students with the tools to achieve a successful transition from school to university (both academically and personally)

### Year 8
- **Introduce students to concept of University to empower and enthuse them to understand their options**
- *University Awareness Day* - 1/2 Day Campus visit for entire cohort to rotate through a series of activities

### Year 9
- **Aspiration raising - begin conversation about careers, how you get there (ie what level of study) and researching their options**
- *3Cs: Courses, Careers and Chocolate* - Year 9 Presentation at your school

### Year 10
- **Expand student’s knowledge of university with real life experiences/examples**
- Activities may include:
