Dear SAM Schools,

Year 10 Independence Day
Wednesday 4 July 2012
Monash Clayton Campus 12pm - 3pm

Monash University is running an afternoon program for Year 10 students these July school holidays.

Year 10 Independence Day is being held on July 4 at the Monash Clayton Campus from 12pm – 3pm, and has been designed to give Year 10 students food for thought as they consider their VCE options and begin to understand the importance of their subject choices.

The afternoon is a chance for students to get their hands on the brand new Monash University Year 10 Guide – designed and produced specifically for Year 10 students. They will also learn about prerequisites and why you need to study them, which is timely information as VCE subject choices are made.

Students who attend Year 10 Independence Day will also have the chance to:
- Learn about what to consider when choosing a university course
- Find out about pathways
- Hear from a current Monash student about the benefits of undertaking Extension Studies
- Talk to faculty representatives
- Take part in discipline specific workshops.

Lunch will be provided, so students planning to attend need to register. All registered students will be contacted closer to the event to confirm finalised workshop details.

To register, students need to visit http://monash.edu/study/options/schools/year10.html

Teachers and parents are welcome to attend, as we understand decisions about subjects and courses are often the result of a collaborative process. However, the program of activities is primarily aimed at Year 10 students.

If any teachers are interested in attending, please RSVP directly to Eddie Oates via email - eddie.oates@monash.edu

We would appreciate it if you could advertise this opportunity to your Year 10 students and their parents.

We hope to see some of you there.

Kind Regards

Edwina Oates
Student Recruitment Coordinator
Office of Future Students (Onshore)
Office of the Deputy Vice-Chancellor (Global Engagement)
