

## Year 10-12 SEAL Pathway 2025

In Year 10 students take more ownership of their learning, electing subjects that suit their interests and abilities. A SEAL student has the opportunity to develop a program that is unique to them. The program below is an example of a SEAL program option, but all programs can be individualised further to meet the student's needs. It is important to have these discussions with a member of the Pathways of Leadership Teams.

### Year 10 – SEAL Program with VCE Specialisation

<b>Semester One</b>	English Or EAL	Maths Extension Or Mainstream Or VCE Maths 1&2	VCE Elective Unit 1&2	Elective 1	Elective 3	SEAL Extended Research
<b>Semester Two</b>				Elective 2	Elective 4	

### Year 11

<b>Semester One</b>	VCE English 1&2	VCE Maths 1&2 or 3&4	VCE Elective 3&4	VCE Elective 1&2	VCE Elective 1&2	Endeavour
<b>Semester Two</b>						

### Year 12

<b>Semester One</b>	VCE English 3&4	VCE Maths 3&4	HES – Higher Education Study	VCE Elective 3&4	VCE Elective 3&4	Roadmap
<b>Semester Two</b>						

### **Frequently Asked Questions:**

#### **What is SEAL Extended Research?**

SEAL Extended Research is based on VCE Extended Investigation. It aims to have student's complete projects that require them to research, investigate and present ideas using a process similar to what is required at university level. The subject also supports the development of skills that are required across many VCE subjects.

#### **Are all SEAL students together for English, Maths and other subjects?**

No. In Year 10 SEAL students are only together for Extended Research. For all other subjects SEAL students are in different classes because these classes are determined by student choices, not by class allocations.

#### **Are all SEAL students expected to undertake a VCE subject in Year 10?**

No. There is no requirement that all SEAL students complete a VCE subject in Year 10. However, doing so means that you can complete 6 x VCE subjects by the end of Year 12, which provides an ATAR boost.

#### **Can a SEAL student undertake 2 x VCE subjects in Year 10?**

Yes. Subject to performance in Year 9 and subject to meeting specific requirements and availability. Something to discuss with a Course Counsellor.

#### **If a SEAL student undertakes a VCE Maths in Year 10, do they still have to do Year 10 Maths?**

Not necessarily, but depends on their Maths pathway. This is a conversation that needs to be had with a course counsellor and your maths teacher.

#### **Does a SEAL student have to do a VCE Maths 1-4?**

No. Approximately 70% of Year 12 students complete a VCE Maths, but it is not mandated. Prior to dropping Maths you should check University pre-requisites.

#### **What is a HES and what is the advantage of undertaking a HES?**

HES is a Higher Education Study. It is basically a University subject that you can access whilst doing Year 12. For more information refer to the Year 10-12 Course Handbook.

#### **Can you do less subjects in Year 12 to allow for more study periods?**

Provided certain criteria are met it is an option. Criteria includes completing 6 unit 3&4 sequences to maximise your ATAR score and meeting attendance and academic requirements which includes high performance in completed Unit 3&4 subjects.
